

McManus Amusements Inflatable Ride Rules and Regulations

Please take the time to read this safety information sheet. It will cover any and all topics related to McManus Amusements products from setup specifications to safety during operation. If you find a topic that is not covered or feel should be addressed please notify us at (443) 904-7849 or email us at dan@mcmanusamusements.com.

Setup Information and Specifications

- Every inflatable has at least one inflation tube that is attached to a motor/blower; all other inflation tubes need to be securely fastened so air does not escape. Motor/blower needs to be on at all times while inflatable is in use.
- Every inflatable has at least four anchoring points; some slides or larger inflatables will have at least two more to secure it from tipping over.
- Every inflatable has a safety plaque that needs to be read and followed by attendants and users.
- Some inflatables have velcro and zippers; these need to be closed and fastened at all times.

Setup Locations

- Setup can be on grass, concrete/asphalt, hardwood floor, and sand; setup cannot be on mud/dirt, rocks, any sharp objects, on water or on pools.
- Maximum allowed incline or decline for setup location is five degrees.
- Setup location must be cleared of any and all objects; this includes toys, animal excrement, etc.

Motor/Blower

- Motor/blower needs to be on at all times.
- If motor/blower turns off, the inflatable will lose air and collapse.
- Potential problems that can cause under-inflation:
 - Leaves or debris blocking the air suction.
 - Inflation tube not securely tightened to blower.
 - Using extension cords over 100 feet long.

Electricity Requirements

- Electricity outlets need to be available near setup location. If unavailable, a generator is required.
- Electricity outlets being used should be able to hold 7-15 Amps and 115 Volt power.
- Generator – should be at least 4,000 Watt rated power. Required for park orders.
- Potential problems that can cause electricity power to short:
 - Other appliances being used on the same electricity outlet or breaker.
 - Gas in the generator runs out (if applicable).
 - If electrical cord has been taken out of the outlet.
 - If motor/blower switch has been turned off.

General Attendant Information and Instructions

Attendant Information

- A responsible adult must be attending/supervising inflatable and users at all times.
- Attendant MUST read and understand safety plaque and operation information.
- Attendant MUST be alert and pay attention to users at all times
- Attendant MUST be standing in a position where he/she has clear view of riders.
- Children under the age of 18 using McManus Amusements equipment should never be left alone without an attendant.

Safety Rules

- Riders cannot exceed maximum weight, height, and number of riders specified on safety plaque.
- No sharp objects allowed inside the inflatable (shoes, keys, glasses, necklaces, etc.).
- No one is allowed in the inflatable that has or might have physical problems, or is under the influence of drugs or alcohol.
- Riders must be properly dressed.
- Riders must be of same age, ability, and physical size.
- No food, gum, drinks, pets, or sprays inside of inflatable products.

- No rough play inside of inflatable products.
- Riders are not allowed to play near the entrance or exit.
- Riders are not allowed to jump against, climb on, or play near the sides or wall nettings.
- Riders should not be using inflatable products during inclement weather (rain, high wind, etc.).
- Riders should be sliding in the proper manner demonstrated on safety plaques (feet first).

Emergency Procedures

- If inflatable begins to deflate or collapse, REMAIN CALM and direct everyone outside of the inflatable as soon as possible.
- If someone is trapped inside of a collapsed inflatable you must REMAIN CALM, direct someone to re-inflate the product while helping the person out of the product at the same time.

Water Rides

- Need to be set up near a water supply/water hose
- Attendants must wait for slides to be clear of other attendants or any miscellaneous objects before sliding down the slide.
- Attendants MUST follow safety rules and guidelines on the safety plaque of every inflatable.
